## Gratnells Storage

**Introducing Gratnells, the ultimate solution to optimise storage and organisation in diverse environments.**

Featuring highly adaptable configurations and modular design, the Gratnells system is tailored for high-traffic spaces, ensuring efficiency in storage and preparation areas.

For peace of mind, all Gratnells products come with a 5-year warranty. This warranty underscores the durability and quality of Gratnells storage solutions, providing customers with confidence in their investment.

The Gratnells storage range, available through Westlab, stands as a versatile, efficient, and reliable solution for various storage needs. Whether in high-traffic areas or specialised settings, the Gratnells system excels in providing a seamless and organised storage experience.

## Gratnells Standard Trays

The iconic Gratnells school trays are a staple in learning environments worldwide.

Manufactured from fully recyclable Polypropylene (PP), these trays are standardised for seamless integration with typical school furniture, beloved by teachers and technicians, and BSI approved for heavy educational use.

Their talc-filled polypropylene construction provides chemical resistance surpassing that of ABS-based trays in the market, making them ideal for safely conducting science activities. With a semi fire-retardant property at 0.22mm per minute, Gratnells trays have found their place in laboratories and prep rooms for over 50 years. Additionally, they feature an anti-static additive, reducing dust attraction.

These trays offer exceptional flexibility in learning spaces, easily moved, and fitted into standardised units. They were specifically designed to maximise storage efficiency within a limited footprint, freeing up more room for educational activities.

Available in a variety of colours for visually stimulating and colour-coded storage, their trademarked design ensures easy access for learners. The standard stocked colours are royal blue, flame red, sunshine yellow, cyan blue, jolly lime, grass green and translucent. To purchase non-listed Gratnells coloured trays, please contact our team for more details. Whether you need to store chemicals, worksheets, stationery, or robotics kits, a Gratnells tray provides the perfect solution.

### Product Features

- Suitable for 500mm Deep Frames & Trolleys
- Anti-Fade Colour Protector, Scratch Resistant
- Anti-Static Additive for Dust Protection
- 40 Colours In 4 Heights

Protection from dust contamination  
Anti-static additive

Extra layer of risk prevention  
Slow burn rate for extra safety

No need to worry about spills  
Chemically unreactive

Scratch resistant

Zero-fade colour protector

Description	Translucent Lid for Trays
Material	Polypropylene (PP)
Colour	Translucent
Dimensions	285mm W x 431mm D x 30mm H
Quantity	1

## Gratnells Tray Inserts

Our Tray Inserts are available in various compartmental configurations, and they can be easily placed within shallow F1 or deep F2 trays, effectively dividing them into sections. These inserts serve as a practical solution for keeping smaller objects neatly separated and ready for activities.

The open sections not only aid students in quickly identifying the items they need but also contribute to reducing lost learning time. This organisation system empowers students by enabling them to independently locate the equipment they require, boosting their self-esteem.

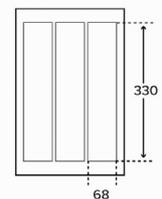

By incorporating these tray inserts, you support student independence and ensure that items can be easily checked and monitored, guaranteeing the availability of necessary equipment. This organisational adaptation is particularly beneficial for students with special educational needs and disabilities, as it helps prevent lost learning time and effectively divides trays into smaller, more manageable sections.

### Product Features

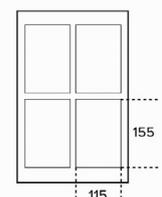

- Various Compartmental Configurations for Versatility
- Open Sections Support Student Independence
- Useful for Storing Smaller Items

### Moulded Inserts, Polystyrene (PS)

<b>Code</b>	<b>1800</b>
<b>Description</b>	Moulded Insert, PS, 3 Section, Shallow

Description	Foam Insert, 30 Section for Graphic Calculators	
Insert Material	Polyurethane (PU)	
Insert Colour	Grey	
Insert Sections	30 Sections for Graphic Calculators	
Insert Dimensions	270mm W x 390mm D x 35mm H	

Code	1813	 <b>15</b> 23x80mm
Description	Foam Insert, 15 Section for PDA Calculators	
Insert Material	Polyurethane (PU)	
Insert Colour	Grey	
Insert Sections	15 Sections for PDA Calculators	
Insert Dimensions	270mm W x 390mm D x 50mm H	

Code	1814	
Description	Foam Insert, Blank, 5mm	
Insert Material	Polyurethane (PU)	
Insert Colour	Grey	
Insert Sections	Blank, Customisable	
Insert Dimensions	270mm W x 395mm D x 5mm H	

Code	1820	 <b>20</b>
Description	Foam Insert, 20 Section for Safety Glasses	
Insert Material	Polyurethane (PU)	
Insert Colour	Grey	
Insert Sections	20 Sections for Safety Glasses	
Insert Dimensions	275mm W x 390mm D x 40mm H	

## Gratnells SortEd Inserts

The SortED Modular Tray Inserts have been designed to seamlessly fit Gratnells shallow and deep trays.

They can create up to 8 sections in a shallow tray and 16 sections in a deep tray, spanning across two levels. This design maximises storage volume and organisational efficiency. The small and medium inserts function as compartments for small parts, while the large insert can hold the smaller inserts or longer components at the top of the tray.

They are manufactured to be effortlessly lifted out of the tray, catering to the smallest hands, and ensuring accessibility for all learners. This feature makes them particularly suitable for pre-prepared activities, allowing students to help themselves. Furthermore, the SortED inserts are dishwasher safe, providing a convenient cleaning solution.

The SortED inserts offer multiple benefits in educational settings. They enable tray division, prevent the loss of learning time, and support organisational adaptability, particularly beneficial for students with Special Educational Needs and Disabilities.

The dishwasher-safe inserts ensure easy cleaning, contributing to a hygienic learning environment. The different colours aid in monitoring items visually. Additionally, the SortEd inserts support student independence and facilitate activity setup before lessons.

### Product Features

- Various Compartmental Configurations for Versatility
- Open Sections Support Student Independence
- Suitable for Shallow F01 & Deep F02 Trays

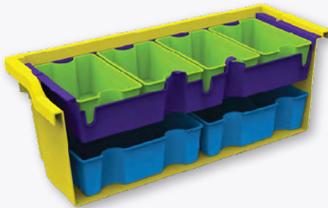

Divide the trays into  $\frac{1}{2}$ ,  $\frac{1}{4}$  or  $\frac{1}{8}$  sections.

Suitable for the shallow F01 and deep F02 trays.

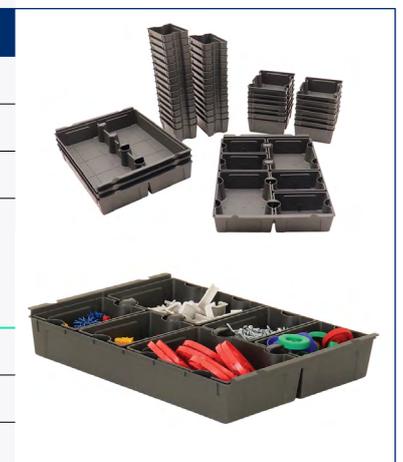

Create two layers in a deep tray for improved organisation.

### SortEd Insert Kits

<b>Code</b>	SE01		
<b>Description</b>	SortEd Insert Kit, Bright Antimicrobial

## GratStack® Modular Solution

Start your storage journey with a single GratStack and tailor your solution with trays, lids, inserts, labels, and as many additional storage units as you require. The GratStack, renowned for its excellence, puts the power of choice in your hands. Customise the unique combination that suits your needs.

GratStack® seamlessly integrates into any classroom, resource room, or laboratory. Opt for single columns or multiples to fashion custom configurations or explore our pre-designed combinations. Enjoy the flexibility of this modular tray storage system, offering countless arrangements.

With GratStack's innovative click-together design, construct stacks vertically or horizontally to maximise storage in your desired locations. Whether you need a tabletop or a mobile trolley, the option of castors or slip-proof feet provides adaptability. Elevate your storage possibilities both spatially and functionally.

Our award-winning GratStack series facilitates vertical or horizontal connections, enabling limitless storage possibilities. Suitable for diverse areas such as desks, under benches, and with optional castors for effortless mobility.

In addition to its versatility, GratStack boasts eco-friendliness, featuring full recyclability. The rounded edges, absence of sharp corners, compact design, and space-saving attributes make it ideal for early years and primary education. Rigorously tested for heavy educational use, GratStack offers a safe and reliable storage solution that can be customised with either castors or static feet.

### Product Features

- Polypropylene Frame for Durability
- Innovative Click-Together Modular Storage
- Convert Into Trolleys With Separately Supplied Castors
- Suitable for Regular Cleaning

## Gratnells Trolleys

Our under bench and bench height trolleys offer a versatile solution for transporting equipment within various science settings.

Whether you're in the lab, the prep room, or moving between classrooms, Gratnells designed these trolleys to simplify the process for educators and technicians, making activity preparation quick, safe, and efficient.

With smooth-rolling, heavy-duty castors, you can easily transport equipment between spaces while maintaining maximum control. Additionally, if you need to keep your trolley in one place for extended periods, you can secure it for enhanced storage and easy access to equipment.

Manufactured from robust, powder-coated steel, our trolleys are ideal for securely storing chemicals, electronics, and other science equipment.

Our trolleys are compatible with Gratnells standard trays, including F1, F2, F25, and F3. Simply slide the trays into the trolley using the provided steel runners.

### Product Features

- Powder Coated Frame for Easy Cleaning
- Recessed Removable Top for Added Storage
- Castors for Smooth, Stable Movement

## Gratnells Frames

Our under bench, bench height and tall frames offer a practical solution for optimising space in a lab, classroom, or prep room. These units are designed to complement existing storage units, offering an extra storage option to meet your needs.

Safety is a top priority in every Gratnells design, and these frames are no exception. They feature adjustable feet for enhanced stability. The tall frames feature tops, adjustable feet, and back diagonal bars, and can also be securely attached to the wall for your peace of mind. In contrast to the column frames, the span frames are designed to be wide and lacks columns. They are specifically for use with shelves, not trays.

Manufactured from robust, powder-coated steel, our frames are ideal for securely storing chemicals, electronics, and other science equipment.

Our frames are compatible with Gratnells standard trays, including F1, F2, F25, and F3. Simply slide the trays into the trolley using steel runners.

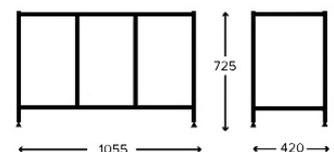

### Product Features

- Powder Coated Frame for Easy Cleaning
- Optimise Full Vertical Storage
- Adjustable Feet for Stability

Shelf Load Capacity	20 kg	
Dimensions	1020mm W x 420mm D x 65mm H	
Quantity	1	

## Gratnells Cleaning Instructions

### Cleaning Instructions

To clean Gratnells trays, we recommend using warm water with a standard household soap or detergent. First rinse the tray clear of debris, then clean the tray with a soft sponge or cloth and the soap mixture, rinse and dry with clean paper towel or air dry.

### Avoid bleach if possible

Bleach can have a detrimental oxidising effect on polypropylene and has an excellent chemical resistance. On prolonged contact, the bleach can begin to break down or dissolve the polypropylene, or over time, with repeated brief contact, weaken the material.

When bleach is dissolved in cold water at a ratio of 10 (water):1 (bleach), these effects are reduced particularly if contact is brief. However, the tray should always be thoroughly rinsed to remove traces of bleach after cleaning. Note that the translucent trays may become cloudy due to repeated cleaning with bleach solutions.

### Alternatives to standard bleach

Polypropylene shows excellent resistance to hydrogen peroxide, particularly at concentrations under 10% so a diluted, liquid detergent non-chlorine bleach would be a suitable alternative disinfectant to standard household or general bleach. At concentrations under 3%, there is unlikely to be any long-term discolouration.

### Further recommendations and warranty

We recommend testing cleaners and disinfectants on an inconspicuous area before proceeding. Always pay particular care and attention to cleaning of handles, pulls and other key touch points. Residue left by a cleaning agent may degrade surfaces and affect the warranty.

Cleaning information is not a guarantee and does not relieve the user from the responsibility of the proper and safe use of the product and all cleaning agents. Consult the cleaning agent's Material Safety Data Sheet for further information. The use of certain cleaning agents can be harmful to the surface appearance and lifespan of surfaces.

Gratnells assumes no responsibility resulting from the use of such cleaning agents. Faults caused by natural wear and tear including cosmetic damage, scratches, dents, chips or other damages to the finish of your product may lead to liquid ingress and rust and are not covered by our warranty.
